Smartcockpit.com and the success of its E-Library service

15 September 2024

<u>Smartcockpit.com</u> supports its members in further developing their knowledge and expertise through its E-Library service. Through the <u>FLIGHT OPS</u> (Flight Operations) section, <u>Smartcockpit.com</u> users can get instant access to thousands of technical documents, summaries, investigation reports, and best practices. Seven sub-sections are available: Aerodynamics and Performance, Engines, Flying technique, Human factors, Meteorology, Navigation & ATC, Safety, Systems & instruments.
